**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-16 have been allowed.

***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

The prior art of record to Luz and Lee either alone or combine fails to teach or suggest an apparatus and its corresponding method for compensating the gain of an automatic gain controller (AGC) in a receiver including the AGC for controlling the gain of received packet data in a mobile communication system where packet data is discontinuously transmitted, comprising a compensation controller for receiving an AGC value from the AGC, sampling the AGC value by a predetermined sample number for a predetermined period, and obtaining an AGC compensation gain by calculating the difference between a sampled AGC value with a reference gain for the predetermined period; and a compensator for compensating the AGC value with the AGC compensation gain, thereby correcting errors generated in view of the nature of the AGC as called for in claims 1 and 10. At least, LEE fails to teach "a compensation controller for receiving an AGC value from the AGC." The section of LEE describes a method according to LEE's teaching. However, nothing in figure 5 and paragraphs 50-55 of LEE teach or suggest receiving an AGC value from an AGC. The methodology discussed in the cited portion of LEE merely identifies that the Modem (100) calculates calibrated ADC values by adjusting ADC values using compensation values. The compensation values are obtained from a signal that is being transmitted by the radiotelephone that has been compensated by the AGC. As is clearly illustrated in LEE's drawing figure 2, an AGC value is sent from modem (100) to AGC (200).

Art Unit: 2618

Thus, at the least LEE teaches an AGC value being sent to an AGC instead of an AGC value being sent from an AGC. Thus, the examiner agrees that LEE does not disclose receiving an AGC value from the AGC.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
